

SOLUTION OVERVIEW ONLINE ATTESTATION

Sanator Online Attestation simplifies the periodic attestation of provider directory information between a health plan and its contracted providers through an online portal and process management dashboard.

SOLUTION BENEFITS

+ SIMPLIFY DATA VALIDATION

Providers are required to attest to the accuracy of their provider directory data for each of their contracted health plans on a regular basis. CMS requires quarterly attestation for providers in Medicare Advantage health plans, whereas California regulators require provider attestation on an annual or six-month cycle for Medi-Cal and commercial health insurance products.

+ IMPROVE ENGAGEMENT

+ DELEGATED GROUP MODEL

Sanator offers an online attestation service that simplifies the validation and attestation of provider directory data for individual providers and provider groups.

+ INTEGRATED RESULTS

+ PROVIDER FRIENDLY

AUTOMATED COMPARE AND RECONCILIATION +

Sanator makes each attestation quick and painless for providers by comparing their current profile in the Sanator Provider Registry to the current health plan data and publishing the results to the Sanator Attestation application for the provider, or their delegated administrator, to review and confirm. attestation.

ONLINE PROVIDER PROFILE +

Each individual provider, provider organization and medical facility that is required to attest to a health plan has access to an online profile that is tailored to the attestation regulation for that provider type.

GROUP ATTESTATION +

Provider organizations and management groups that are responsible for multiple providers can manage their delegated responsibilities through the Sanator Attestation application. Groups may opt to download attestation reports that highlight any differences between the group data and health plan data for bulk review and attestation as an alternate approach to attesting provider-by-provider through the application.

INTEGRATED RESULTS +

All changes submitted by providers or their delegated administrators through the Sanator Attestation application are made available on a daily basis to the health plan for integration into internal systems.

PROVIDER FRIENDLY PROCESS +

Rated above 4.5 out of 5 stars by providers for ease of use, clarity and performance. More than 85% of all providers that have access to the Sanator Attestation application are willing and able to complete attestation with no additional support from the health plan.
